

Informed consent on the medical examination

within the framework of Aktion Löwenzahn Plus

Dear parents and guardians,

by means of specific measures predominantly taken by the Bavarian State Working Group for Dental Health (LAGZ), tooth health of Bavarian school children has notably improved in recent years. LAGZ (an association of dental corporations and all health insurance associations) has triggered and supported this positive development for the last 20 years and is still dedicated to this important and valuable task.

LAGZ is charged by the Land of Bavaria to improve dental health by offering individual programs. In Bavarian special needs schools this has been achieved by the successful introduction of „Aktion Löwenzahn Plus“. This initiative is designed to motivate children to visit their dentist semiannually.

After having taught your children about oral hygiene and dental health diet at school already, we would like to do a quick examination of their oral cavity.

The examination is planned on _____ and will be performed by LAGZ dentist _____ (phone: _____).

This measure will be free of cost for you.

In case of question please contact the above mentioned LAGZ dentist.

With kind regards,
your LAGZ

Fancy healthy teeth – lifelong!

Your child has just been examined by a LAGZ dentist.
The result:

- ☐ for a sustainable salvage of dental health a regular visit of the dentist is recommended.
- ☐ thorough examination and treatment by a dentist is necessary.

Dear parents!

Please have this card stamped after the your child's next visit at the dentist.
The stamped cards are being collected in a special poster showing a lion in your child's classroom.

Dentist's stamp:

Please note that:

- ☐ Preventive check-ups by your dentist are costless
- ☐ The examination at school does not replace regular, semiannual check-ups by your dentist
- ☐ Stamped lion-card should be posted in the lion collecting box in your child's school. Schools with the most collected cards win cash prizes.

“Hi, I am lion Dentulus. Can you find a rhyme that fits my song?”

I fancy healthy teeth... oder My teeth are strong and clean... oder My teeth are strong, so I like them best... → auf best reimt sich nämlich „crest“, was Mähne auf Englisch heißt...

Aktion Dentulus Sticker Sammler...

Dentulus Sticker Collector

Caries – No!

Strong as a lion with healthy teeth

.....

Hi kids,

in case you don't know me yet: My name is Dentulus and I am lion-strong with healthy teeth. Can you bite as good as I can? Yes? Great! So, I am confident you visit the dentist twice to make sure that your teeth stay really sharp and strong.

When you bring my lion-card it will be stamped by your dentist. With the stamped cards you can feed me in your classroom. At the end of term your teacher will count your collected cards. If you all participate, your school can win great prizes. I am already looking forward to being card-fed.

When you get a sticker from your teacher for each of your stamped lion-cards, you can stick it here on the Dentulus sticker collector. There is additional space for phone numbers and birthdays of your friends on the back page.

You can cut the sticker collector and wrinkle it zigzag-wise into a small booklet that will perfectly fit in your pencil case.

If you already have a Dentulus sticker collector from previous years, you can use it to collect your lion stickers of course.

Have great fun!

Your lion Dentulus.

Ps. Dear parents, please remember the semiannual examinations. Costs for these are completely covered by health insurance companies.
